01 Unit 1 · 01번 지문

Dear Principal Jones,

I hope this message finds you well. As student council president, I am reaching out to discuss an important matter regarding our school library's current operating hours. At present, the library closes at 5 p.m., which many students feel limits their ability to fully use its resources for study and research after regular class hours. This is particularly challenging for those preparing for college entrance exams or working on academic projects that demand a quiet and resourceful environment. Therefore, I'd like to ask you to extend the library's operating hours to 7 p.m. This change would greatly benefit students by providing additional time to focus on their academic goals. I hope you will consider this proposal as a step toward improving our academic environment and better supporting our needs.

Sincerely,
Eric Park Student Council President

Q. 위 글의 목적으로 가장 적절한 것은?

① to report the student council's activity plan
② to suggest purchasing new library materials
③ to request an extension of library operating hours
④ to request opening a special study room during exams
⑤ to announce a school facility improvement project

02 Unit 3 · 01번 지문

Inefficient teachers overlook the potential power of the opening minutes of class. Often, if students are quiet enough and if there are many pressing demands on a teacher's time at that moment, more than ten minutes can disappear before class starts. It's no wonder that students are late for class; they have little reason to be on time. You can use the first ten minutes to get your class off to a great start, or you can choose to waste this time. The first minutes set the tone for the rest of the class. If you are prepared for class and have taught your students an opening routine, they can use this brief time to make mental and emotional transitions from the last class or subject and prepare to focus on learning new material. In summary, you should establish an opening routine to develop your class with an effective start.

Q. 이 글의 요지로 가장 적절한 것은?

① A penalty system should be introduced to prevent tardiness.
② Teachers should establish an opening routine to use the first minutes effectively.
③ Teachers should focus on communicating with students rather than preparation.
④ Class time should be shortened and self-study time increased.
⑤ Audiovisual materials should be used to improve student concentration.

Many atoms in your body are nearly as old as the universe itself. When you breathe, for example, only some of the atoms that you inhale are exhaled in your next breath. The remaining atoms are taken into your body to become part of you, and they later leave your body by various means. You don't "own" the atoms that make up your body; you borrow them. We all share from the same atom pool because atoms forever travel around, within, and among us. Atoms cycle from person to person as we breathe and as our sweat is evaporated. We recycle atoms on a grand scale. The origin of the lightest atoms goes back to the origin of the universe, and most heavier atoms are older than the Sun and Earth. There are atoms in your body that have existed since the first moments of time, recycling throughout the universe among limitless forms, both nonliving and living. You're the present caretaker of the atoms in your body. There will be many who will follow you.

Q. 이 글의 주제로 가장 적절한 것은?

① the universal recycling of atoms through all forms of matter
② the chemical composition of the human body
③ how breathing works at the molecular level
④ the difference between living and nonliving matter
⑤ the age of the Sun and Earth compared to atoms

The act of gardening itself is a fantastic form of physical activity. It involves a range of motions, from digging and planting to watering and harvesting. These activities help improve strength, flexibility, and endurance. You might not realize it, but small tasks like weeding or turning compost can burn many calories. Gardening is particularly beneficial for those who find traditional exercise challenging. It's a low-impact way to stay active and fit, making it accessible for people of all ages and physical abilities. Besides physical health, gardening has profound mental health benefits. Tending to plants can be incredibly calming and meditative. It allows you to focus on the present moment, reducing stress and anxiety. The repetitive tasks involved in gardening can induce a state of mindfulness, similar to meditation. Studies have shown that spending time in nature, even in a small garden, can elevate mood, improve cognition, and reduce depression symptoms. The sense of accomplishment from watching your plants grow and thrive can also boost self-esteem and overall well-being.

Q. 이 글의 제목으로 가장 적절한 것은?

① The Best Plants for Beginner Gardeners
② Why Outdoor Exercise Beats Indoor Workouts
③ Scientific Research on Plant-Based Diets
④ How Nature Photography Reduces Stress
⑤ Gardening: Nurturing Body and Mind

B 빈칸추론

05 Unit 2 · 01번 지문

I glanced at the clock on the wall. 10:00. That meant the casting director would call very soon with the results of my first audition for a musical part in The Wizard of Oz. I felt shaky all over, chewing my thumbnail and jiggling my feet. Finally, the telephone rang. While I was coming round, Dad answered. I heard him say, "Ahh, thank you. I'll let her know ..." As I got to the bottom of the stairs, he was just putting the phone down. "That was The Wizard of Oz. You're second senior munchkin," he announced. I got a little rush of excitement, knowing I was in — that whatever happened I could be _____ in one of the productions.

Q. 윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① abandoned
② rejected
③ disappointed
④ involved
⑤ excluded

06 Unit 3 · 04번 지문

As the parent of a gifted child, you need to be aware of a certain common parent trap. Of course you are a proud parent, and you should be. While it is very easy to talk nonstop about your little genius and his or her remarkable behavior, this can be very stressful on your child. It is extremely important to limit your bragging behavior to your very close friends, or your parents. Gifted children feel pressured when their parents show them off too much. This behavior creates expectations that they may not be able to _____, and also creates a false sense of self for your child.

Q. 윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① live up to
② give in to
③ look forward to
④ catch up with
⑤ get away from

07 Unit 4 · 04번 지문

One valuable technique for getting out of helplessness, depression, and situations which are predominantly being run by the thought, "I can't," is to choose to be with other persons who have _____ the problem with which we struggle. This is one of the great powers of self-help groups. When we are in a negative state, we have given a lot of energy to negative thought forms, and the positive thought forms are weak. Those who are in a higher vibration are free of the energy from their negative thoughts and have energized positive thought forms. Merely to be in their presence is beneficial.

Q. 윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① ignored
② created
③ resolved
④ avoided
⑤ worsened

08 Unit 5 · 04번 지문

Our emotions are thought to exist because they have contributed to our survival as a species. Fear has helped us avoid dangers, expressing anger helps us scare off threats, and expressing positive emotions helps us bond with others. From an evolutionary perspective, an emotion is a kind of "program" that, when _____, directs many of our activities (including attention, perception, memory, movement, expressions, etc.). Regardless of the specific ways in which they activate our systems, the specific emotions we possess are thought to exist because they have helped us (as a species) survive challenges within our environment long ago.

Q. 윗글의 빈칸에 들어갈 말로 가장 적절한 것은?

① suppressed
② triggered
③ eliminated
④ forgotten
⑤ simplified

09 Unit 1 · 04번 지문

To whom it may concern,

I am writing to express my deep concern about the recent change made by Pittsburgh Train Station. The station had traditional ticket offices with staff before, but these have been replaced with ticket vending machines. However, individuals who are unfamiliar with these machines are now experiencing difficulty accessing the railway services. Since these individuals heavily relied on the staff assistance to be able to travel, they are in great need of ticket offices with staff in the station. Therefore, I am urging you to consider reopening the ticket offices. With the staff back in their positions, many people would regain access to the railway services. I look forward to your prompt attention to this matter and a positive resolution.

Sincerely,
Sarah Roberts

Q. 이 글의 내용과 **일치하지 않는** 것은?

① A recent change was made at Pittsburgh Train Station.
② Staffed ticket offices were replaced with vending machines.
③ Some people are having difficulty using the machines.
④ The writer is urging the reopening of ticket offices.
⑤ The station has already decided to reopen the ticket offices.

10 Unit 2 · 04번 지문

All the actors on the stage were focused on their acting. Then, suddenly, Arthur fell into the corner of the stage. Jeevan immediately approached Arthur and found his heart wasn't beating. Jeevan began CPR. Jeevan worked silently, glancing sometimes at Arthur's face. He thought, "Please, start breathing again, please." Arthur's eyes were closed. Moments later, an older man in a grey suit appeared, swiftly kneeling beside Arthur's chest. "I'm Walter Jacobi. I'm a doctor." He announced with a calm voice. Jeevan wiped the sweat off his forehead. With combined efforts, Jeevan and Dr. Jacobi successfully revived Arthur. Arthur's eyes slowly opened. Finally, Jeevan was able to hear Arthur's breath again, thinking to himself, "Thank goodness. You're back."

Q. 이 글의 내용과 **일치하는** 것은?

① Arthur collapsed during a rehearsal.
② Jeevan was a doctor.
③ Arthur's heart was beating normally when Jeevan found him.
④ Jeevan and a doctor worked together to revive Arthur.
⑤ Arthur never regained consciousness.

Q. 이 글의 내용과 **일치하지 않는** 것은?

① The atoms in our body permanently belong to us.
② Atoms cycle through breathing and sweat evaporation.
③ We all share from the same atom pool.
④ Atoms travel among people continuously.
⑤ We recycle atoms on a grand scale.

12 **Unit 5 · 04번 지문**

Our emotions are thought to exist because they have contributed to our survival as a species. Fear has helped us avoid dangers, expressing anger helps us scare off threats, and expressing positive emotions helps us bond with others. From an evolutionary perspective, an emotion is a kind of "program" that, when triggered, directs many of our activities. For example, fear makes us very attentive, narrows our perceptual focus to threatening stimuli, will cause us either to face a situation (fight) or avoid it (flight), and may cause us to remember an experience more acutely. If they had not helped us adapt and survive, they would not have evolved with us.

Q. 이 글의 내용과 **일치하는** 것은?

① Emotions are a recent development unique to humans.
② Fear disperses our attention broadly.
③ Emotions are evolutionary programs that aided species survival.
④ Expressing anger helps bond with others.
⑤ Emotions evolved independently of environmental challenges.

As the parent of a gifted child, you need to be aware of a certain common parent trap. While it is very easy to talk nonstop about your little genius and his or her remarkable behavior, this can be very stressful on your child. It is extremely important to limit your bragging behavior. Gifted children feel pressured when their parents show them off too much. This behavior creates expectations that they may not be able to live up to, and also creates a false sense of self for your child. You want your child to be who they are, not who they seem to be as defined by their incredible achievements. If not, you could end up with a driven perfectionist child or perhaps a drop-out, or worse.

Q. 밑줄 친 "you could end up with a driven perfectionist child or perhaps a drop-out, or worse"가 의미하는 바로 가장 적절한 것은?

① Gifted children are born with a natural tendency toward perfectionism.
② Dropping out of school results from parental neglect.
③ Excessive bragging can push a child to extreme outcomes.
④ The effectiveness of gifted education depends on parental involvement.
⑤ Perfectionism is an essential factor for academic achievement.
