The First Snow

This morning when I woke up, I saw something amazing outside my window. The world was white! Big, soft flakes of snow were falling from the sky. It was the first snow of the year. The snow covered everything—the trees, the roofs, and the cars. It looked like the world was covered in a soft, white blanket. The whole town was quiet and peaceful. I quickly put on my warmest clothes and ran outside. The air was cold and fresh. I made a snowball and threw it at a tree. The atmosphere was so magical. I went back inside and made a cup of hot chocolate. Drinking it by the window and watching the snow fall made me feel very cozy.

School Sports Day

Our school's annual sports day was held yesterday. The sky was clear and everyone was full of energy. All students were divided into two teams: the Blue Team and the White Team. I was on the Blue Team. I decided to compete in the 100-meter race and the relay race. I didn't win the 100-meter race, but I tried my best. The most exciting event was the relay race. I was the last runner for my team. When I got the baton, the White Team was slightly ahead. I ran as fast as I could. My friends and teachers cheered for me loudly. In the end, I passed the other runner and we won! I was so tired, but incredibly happy. Sports day is not just about winning; it's about teamwork and effort.

The Power of Sleep

Why is sleep so important? Many students stay up late to study or play games, but not getting enough sleep is a bad idea. Sleep is essential for both your body and your brain. While you are sleeping, your body repairs itself and your brain organizes the information from the day. This helps you remember what you learned. If you don't get enough sleep, you will feel tired and won't be able to concentrate in class. It can also affect your mood, making you feel easily upset. Doctors say teenagers need about 8 to 10 hours of sleep every night. So, make sure to turn off your phone, go to bed early, and let your brain recharge!

Vocabulary

- essential 필수적인, 극히 중요한
- concentrate 집중하다
- affect 영향을 미치다
- recharge 재충전하다

10-1 What is the main topic of this passage?

① The reasons why sleep is important

② The best way to study for a test

③ The effects of playing computer games

The Most Important Meal of the Day

Do you often skip breakfast because you are in a hurry? Many people do, but doctors say that breakfast is the most important meal of the day. It literally means to "break the fast" after a long night of sleep. Your brain and body need fuel to start the day. Eating a healthy breakfast helps you concentrate better at school and gives you the energy to be active. People who eat breakfast tend to have a healthier diet overall. If you skip breakfast, you might feel tired and hungry by mid-morning, and you may eat unhealthy snacks later. You don't need a big meal. A simple bowl of cereal, a piece of fruit, or some toast can make a big difference.

The School Flea Market

Our school hosted a flea market last Saturday to raise money for a local charity. A flea market is a market where people sell used goods. My friends and I decided to participate. We gathered things we no longer used, like old books, toys, and clothes. We set up a small table in the school playground. At first, not many people visited our table. We were a bit disappointed. Then, my friend Minjun had a great idea. He made a colorful sign that said, "Great Items, Low Prices!" Soon, more students and parents started to come. We sold almost everything! In total, we earned 50,000 won. We felt proud to donate all the money to the charity. It was a fun way to help others and learn about economics.

The Secret Life of Trees

We see trees every day, but do we really know them? Trees are much more complex than they look. They have a secret life underground. Their roots spread out like a huge network. Through this network, trees can "talk" to each other. They can share water and nutrients with trees that are sick or in need. They can also send warning signals. For example, if one tree is attacked by harmful insects, it can release a chemical signal through its roots to warn its neighbors. The other trees then produce chemicals to defend themselves. This underground network is sometimes called the "Wood Wide Web." It shows that trees are not just individual plants, but a community that helps each other.

Vocabulary

A Solar Eclipse

A solar eclipse is a rare and amazing astronomical event. It happens when the Moon passes directly between the Sun and Earth, and the Moon fully or partially blocks the Sun. This casts a shadow onto Earth. For a total solar eclipse, the sky becomes dark as if it were night. The stars come out, and the air gets cooler. It is a truly awesome sight. However, it is very dangerous to look directly at the sun during an eclipse. The sun's rays can permanently damage your eyes. You must use special eclipse glasses or a pinhole projector to watch it safely. The next time you hear about a solar eclipse happening, make sure you are prepared to view it safely.

The History of Chocolate

Chocolate is one of the world's most popular foods, but where did it come from? The story of chocolate begins in ancient Central America with the Maya and Aztec people. They made a bitter, frothy drink from the beans of the cacao tree. They believed cacao was a gift from the gods. This drink was very different from the sweet chocolate we eat today. In the 1500s, Spanish explorers brought cacao beans back to Europe. The Europeans added sugar and milk to the drink, which made it much more popular. For a long time, chocolate was a luxury item only for the rich. It wasn't until the 19th century that solid chocolate bars were invented, making chocolate a treat that everyone could afford.

How Do Birds Fly?

Have you ever watched a bird fly and wondered how it does that? Birds are masters of flight, and their bodies are perfectly designed for it. First, they have very light bones. Many of their bones are hollow, which makes their skeletons much lighter than those of mammals. Second, they have powerful flight muscles in their chest to flap their wings. Third, and most importantly, they have feathers. Feathers are light, strong, and flexible. They help birds to lift off the ground and steer in the air. The shape of a bird's wings is also important. It creates a difference in air pressure, which helps to lift the bird up. It's a perfect combination of lightness, power, and aerodynamic design.

Vocabulary

- design 설계하다, 디자인하다
- hollow 속이 빈

Why Do We Yawn?

Everyone yawns. You might yawn when you are tired or bored. But have you ever wondered why we do it? For a long time, scientists believed that we yawn to get more oxygen into our blood. However, recent studies suggest a different reason. The main theory now is that yawning helps to cool down our brain. Your brain works best when it is at a certain temperature. When your brain gets too warm, a yawn can help bring cooler blood to it. This might explain why we yawn more when we are tired, as tiredness can raise brain temperature. It also explains why yawning is contagious. Seeing someone else yawn might be a signal to our brain that it's time to cool down too.

Vocabulary

- yawn 하품하다
- oxygen 산소
- cool down 식히다
- temperature 온도
- contagious 전염성이 있는

54-1 What is the new theory about why we yawn?

① To get more oxygen

② To show that we are bored

③ To exercise our jaw muscles

④ To cool down our brain

⑤ To wake ourselves up

54-2 The word "contagious" in the passage means:

The Life of a Butterfly

The life of a butterfly is a story of amazing transformation. This process is called metamorphosis. A butterfly's life has four stages. First, a female butterfly lays her eggs on a leaf or stem. This is the egg stage. Second, a larva, which we call a caterpillar, hatches from the egg. The caterpillar's main job is to eat and grow. It eats a lot and grows very quickly. Third, when the caterpillar is big enough, it forms a protective shell around itself called a chrysalis (or pupa). This is the pupa stage. Inside the chrysalis, an incredible change happens. Finally, a beautiful butterfly emerges from the chrysalis. It is ready to fly, drink nectar, and start the cycle all over again.

Vocabulary

- transformation 변화, 변신
- metamorphosis 탈바꿈, 변태
- stage 단계
- larva 애벌레, 유충
- emerge 나오다, 나타나다

The Mystery of the Bermuda Triangle

The Bermuda Triangle, also known as the Devil's Triangle, is a region in the western part of the North Atlantic Ocean. It is famous for a mystery: many ships and airplanes have reportedly disappeared there under mysterious circumstances. Some people have proposed strange explanations. They blame aliens, giant sea monsters, or portals to another dimension. However, scientists and experts offer more logical explanations. They point out that this area has very bad weather, including many hurricanes. The ocean floor in this region is also very deep, making it hard to find any wreckage. Furthermore, many of the stories of disappearances have been exaggerated or are not accurate. While the mystery is fun to think about, the reality is likely less supernatural.

Vocabulary

- region 지역, 지방
- mystery 미스터리, 수수께끼
- disappear 사라지다
- exaggerate 과장하다
- reality 현실, 실제
- supernatural 초자연적인

59-1 What is the Bermuda Triangle famous for?

① Its beautiful beaches

② The mysterious disappearances of ships and planes

③ Its calm and safe weather

④ Its unique sea animals

⑤ A portal to another dimension

59-2 Which of the following is a logical explanation for the disappearances?

① Alien abductions

② Attacks by sea monsters

③ Bad weather like hurricanes

④ A secret government base

⑤ The ships and planes were invisible.

59-3 위 글에 따르면, 버뮤다 삼각지대에 대한 작가의 생각은 무엇인가?

① 외계인이나 괴물과 같은 초자연적인 현상이 원인일 것이다.

② 미스터리는 재미있지만, 실제 원인은 악천후 등 현실적인 이유일 가능성이 높다.

③ 버뮤다 삼각지대는 세상에서 가장 위험한 곳이므로 가서는 안 된다.

④ 사라진 배와 비행기에 대한 모든 이야기는 사실이다.

⑤ 버뮤다 삼각지대의 미스터리는 영원히 풀리지 않을 것이다.

The Importance of Water

Water is essential for all life on Earth. Our bodies are about 60% water. We need water to digest food, carry nutrients, and control our body temperature. You can survive for weeks without food, but only a few days without water. However, many people take water for granted. We use it for drinking, cooking, cleaning, and growing food. But fresh, clean water is a limited resource. In some parts of the world, people suffer from water shortages. We must learn to conserve water. Simple actions like turning off the tap while brushing your teeth, taking shorter showers, and fixing leaky faucets can save a lot of water. Every drop counts.

The Amazing Octopus

The octopus is one of the most intelligent and fascinating creatures in the ocean. It has a soft body and eight long arms, called tentacles. Each tentacle is covered with suckers that can taste and touch. One of the octopus's most amazing abilities is its skill at camouflage. It can change its skin color and texture in an instant to blend in with its surroundings, like rocks or coral. This helps it hide from predators and ambush its prey. An octopus also has three hearts and blue blood. If it is in danger, it can squirt a cloud of black ink to confuse its enemy and make a quick escape. It is a true master of disguise and survival.

Vocabulary

- tentacle 촉수

A Pen Pal from Another Country

My English teacher suggested that we find a pen pal to practice our English. A pen pal is someone you write letters to regularly, often someone who lives far away. I was matched with a boy named Leo from Australia. I wrote my first letter, telling him about my school, my family, and my hobbies. A few weeks later, I received a letter back from him. He told me about his life in Sydney. He loves surfing and has a pet koala living in his backyard (just kidding, he said koalas are wild animals). We have been writing to each other for six months now. We share photos and small gifts. It's so interesting to learn about a different culture and life. Having a pen pal has not only improved my English but also given me a new friend from the other side of the world.

Vocabulary

- pen pal 펜팔 친구
- regularly 정기적으로
- receive 받다
- backyard 뒷마당
- culture 문화

65-1 What is a pen pal?

① A friend who lives next door

② A person you write letters to regularly

③ A character in a book

④ A type of pen used for writing letters

⑤ A teacher who teaches English

65-2 Where is the writer's pen pal from?

① America

② England

③ Canada

④ Australia

⑤ New Zealand

65-3 펜팔을 통해 글쓴이가 얻은 것이 아닌 것은?

① 영어 실력 향상

② 다른 문화에 대한 이해

③ 세상 반대편에 있는 새로운 친구

④ 호주로 여행 갈 수 있는 기회

⑤ 편지와 사진을 통한 즐거운 교류

The Invention of the Telephone

Before the telephone was invented, long-distance communication was slow. People had to send letters, which could take weeks or months to arrive. Or they used the telegraph, which could only send messages in code. This all changed thanks to an inventor named Alexander Graham Bell. Bell was working on a way to send human voice over wires. On March 10, 1876, he made the first successful telephone call. He was in one room, and his assistant, Thomas Watson, was in another. Bell spoke into the device, "Mr. Watson, come here. I want to see you." Watson heard the words clearly. This invention completely changed the world. It made communication faster and brought people closer together.

Vocabulary

- communication 의사소통, 통신
- telegraph 전신기
- inventor 발명가
- assistant 조수, 보조원
- device 장치
- invention 발명, 발명품

66-1 Who is credited with inventing the telephone?

① Thomas Edison

② Thomas Watson

③ Alexander Graham Bell

④ Samuel Morse

⑤ The Wright brothers

66-2 What were the first words spoken on the telephone?

① "Hello, can you hear me?"

② "This is a great invention."

③ "Mr. Watson, come here. I want to see you."

④ "One small step for man."

⑤ "What hath God wrought?"

66-3 전화기가 발명되기 전, 사람들이 장거리 소통을 위해 사용했던 방법은?

A Day at the Amusement Park

Last Saturday, my friends and I went to an amusement park. I love the thrill of roller coasters. The first ride we went on was the "Mega Drop." It takes you high up into the sky and then suddenly drops you. I screamed my head off, but it was so much fun. After that, we rode a looping roller coaster and got dizzy. We also enjoyed some classic rides like the Ferris wheel and the bumper cars. From the top of the Ferris wheel, we could see the entire park. It was a beautiful sight. We ate cotton candy and popcorn. The day went by so fast. We left the park feeling tired but extremely happy. It was a perfect day to forget about school and just have fun.

Vocabulary

- amusement park 놀이공원
- thrill 스릴, 흥분

The Problem of Plastic Pollution

Plastic is a very useful material. It's cheap, strong, and can be made into almost anything. Look around you. You will see plastic in your phone, your clothes, and your water bottle. However, our love for plastic has created a huge problem: pollution. Most plastic is not biodegradable, which means it does not break down naturally. It stays in the environment for hundreds of years. Plastic waste ends up in our oceans, harming marine animals. They can mistake plastic bags for food or get tangled in plastic rings. We need to reduce our use of plastic. We can use reusable bags, water bottles, and coffee cups. We must also recycle plastic properly. Every small action helps protect our planet.

Vocabulary

- material 재료, 물질
- biodegradable 생분해성의 (자연적으로 분해되는)
- tangled 얽힌
- reduce 줄이다
- reusable 재사용할 수 있는

68-1 What is the main problem with plastic mentioned in the passage?

① It is too expensive.

② It is not strong enough.

③ It is not biodegradable and causes pollution.

④ It is difficult to make.

⑤ There is not enough plastic in the world.

68-2 How does plastic waste harm marine animals?

① They like the taste of plastic.

② It makes the ocean water warmer.

③ They can mistake it for food or get tangled in it.

④ It makes it hard for them to see.

⑤ It cleans the ocean.

68-3 이 글에서 플라스틱 사용을 줄이기 위한 방법으로 제안되지 않은 것은?

A Total Mess

My parents went on a trip for the weekend, leaving me home alone for the first time. I was excited. I invited my best friend, Mark, over. We decided to bake a cake. But we are not good bakers. We spilled flour all over the kitchen floor. We cracked an egg, and it dripped down the side of the counter. The cake itself got burnt in the oven and filled the house with smoke. The kitchen was a total mess. We looked at each other and just started laughing. It was a disaster, but a funny one. We spent the next two hours cleaning everything up. We didn't get to eat any cake, but we definitely learned a lesson: follow the recipe carefully!

Vocabulary

- spill 엎지르다, 흘리다
- drip 뚝뚝 떨어지다
- burnt (불에) 탄
- mess 엉망, 뒤죽박죽
- disaster 재앙, 큰 실패
- recipe 요리법, 레시피

69-1 What did the writer and his friend try to do?

① Clean the house

② Watch a movie

③ Bake a cake

④ Do their homework

⑤ Fix the oven

69-2 Which of the following did NOT happen in the kitchen?

① Flour was spilled on the floor.

② An egg dripped down the counter.

③ The cake was burnt.

④ The fire alarm went off.

⑤ The house was filled with smoke.

69-3 이 경험을 통해 글쓴이가 배운 교훈은 무엇인가?

① 부모님 없이는 아무것도 할 수 없다.

② 케이크를 굽는 것은 매우 쉽다.

③ 요리법을 잘 따라야 한다.

④ 친구와는 함께 요리하면 안 된다.

⑤ 어지르는 것은 재미있다.

The Five Senses

We experience the world through our five senses: sight, hearing, smell, taste, and touch. Our eyes give us the sense of sight, allowing us to see colors, shapes, and movements. Our ears give us the sense of hearing, letting us hear music, voices, and all the sounds around us. Our nose gives us the sense of smell, which can warn us of danger (like smoke) or bring us pleasure (like the smell of flowers). Our tongue gives us the sense of taste, so we can enjoy different flavors like sweet, sour, salty, and bitter. Our skin gives us the sense of touch, allowing us to feel textures like soft or rough, and temperatures like hot or cold. These five senses work together to give us a complete picture of the world.

Vocabulary

- sense 감각
- sight 시각
- hearing 청각
- smell 후각
- taste 미각
- touch 촉각

70-1 What is the main topic of the passage?

① The five senses and their functions

② The importance of the sense of sight

③ How our brain processes information

④ The different flavors we can taste

⑤ How to protect our senses

70-2 Which sense can warn us of danger like smoke?

① Sight

② Hearing

③ Smell

④ Taste

⑤ Touch

70-3 위 글의 내용과 일치하는 것을 고르시오.

① 우리는 세상을 여섯 가지 감각으로 경험한다.

The Art of Mime

A mime is a type of performer who tells a story without using words. They use body movements, gestures, and facial expressions to communicate their ideas and emotions. A famous mime act is pretending to be trapped in an invisible box. The mime uses their hands to show the walls of the box, creating the illusion for the audience. Mimes often wear white face paint to make their facial expressions clearer. They also typically wear black and white clothing to help the audience focus on their movements. Becoming a mime requires great physical control and imagination. It is a silent art form that can be both funny and touching.

Vocabulary

- performer 공연자, 연기자
- invisible 보이지 않는
- illusion 환상, 착각
- typically 보통, 일반적으로
- imagination 상상력

71-1 How does a mime tell a story?

① By singing songs

② By writing on a board

③ By using body movements and facial expressions

④ By using puppets

⑤ By speaking very softly

71-2 Why do mimes often wear white face paint?

① To look scary

② To make their facial expressions clearer

③ Because it is a tradition with no reason

The Greenhouse Effect

The greenhouse effect is a natural process that warms the Earth's surface. When the sun's energy reaches the Earth, some of it is reflected back into space, and the rest is absorbed by the land and oceans. This absorbed energy is then released back as heat. Certain gases in the atmosphere, like carbon dioxide, trap some of this heat. They act like the glass walls of a greenhouse, keeping the Earth warm enough for us to live. This is the natural greenhouse effect, and it's a good thing. However, human activities, like burning fossil fuels (coal, oil, and gas), are releasing too much carbon dioxide into the atmosphere. This is making the greenhouse effect stronger and causing the Earth's temperature to rise. This is often called global warming or climate change.

Vocabulary

- reflect 반사하다
- absorb 흡수하다
- atmosphere 대기
- fossil fuels 화석 연료
- climate change 기후 변화

72-1 What is the natural greenhouse effect?

① A process that cools the Earth

② A process where gases trap heat to keep the Earth warm

③ A type of house made of glass

④ A problem caused by too much rain

⑤ The changing of the seasons

72-2 How are humans making the greenhouse effect stronger?

① By planting more trees

② By using solar power

③ By releasing too much carbon dioxide from burning fossil fuels

④ By building more greenhouses

⑤ By reflecting more sunlight back to space

A School Field Day

Our school's field day was last Friday. It wasn't a typical sports day with races and competitions. Instead, the theme was "Cooperation and Fun." We were divided into mixed-grade teams. The first game was called "Human Knot." Our team had to stand in a circle, grab hands with two different people across from us, and then try to untangle ourselves without letting go. It was chaotic but hilarious. Another game was "Pass the Water," where we had to pass a cup of water over our heads using only our feet. We got completely wet but laughed so hard. There were no winners or losers, just teams working together and having a good time. It was a great way to build teamwork and make new friends from different grades.

Vocabulary

- cooperation 협동, 협력
- untangle (얽힌 것을) 풀다
- chaotic 혼돈스러운, 무질서한
- hilarious 아주 우스운, 재미있는
- teamwork 팀워크, 협동 작업

73-1 What was the main theme of the field day?

① Intense Competition

② Individual Achievement

③ Cooperation and Fun

④ Academic Excellence

⑤ Artistic Expression

73-2 Which game is NOT described in the passage?

The Legend of Robin Hood

Robin Hood is a legendary hero from English folklore. The stories say he lived in Sherwood Forest with his group of followers, known as the "Merry Men." Robin Hood was an expert archer. He was famous for "robbing from the rich and giving to the poor." At that time, England was ruled by the cruel Prince John and his greedy sheriff of Nottingham. They taxed the poor people heavily. Robin Hood fought against this injustice. He was an outlaw, but he was a hero to the common people. Whether Robin Hood was a real historical figure or just a legend is still debated. But his story of fighting for justice and helping the needy has been popular for centuries.

Vocabulary

- folklore 민속, 민간 전승
- archer 궁수, 활 쏘는 사람
- greedy 탐욕스러운
- tax 세금을 부과하다
- injustice 불의, 부당함
- outlaw 무법자, 법의 보호를 받지 못하는 사람

74-1 What was Robin Hood famous for?

① Being the king of England

② Building Sherwood Forest

③ Robbing from the rich and giving to the poor

④ Being a cruel sheriff

⑤ Writing stories about heroes

74-2 Who were the "Merry Men"?

① The soldiers of Prince John

② The rich people of Nottingham

③ Robin Hood's group of followers

④ A group of famous archers

⑤ The poor people who received money

The Simple Joy of Baking Bread

There is something magical about baking your own bread. It starts with just four simple ingredients: flour, water, yeast, and salt. The process requires patience. You mix the ingredients to form a sticky dough. Then comes the most important part: kneading. You push, pull, and fold the dough until it becomes smooth and elastic. This develops the gluten, which gives the bread its structure. Then, you let the dough rest in a warm place. The yeast works its magic, making the dough rise to double its size. Finally, you bake it. The smell of freshly baked bread that fills the house is one of the best smells in the world. Taking a bite of a warm slice of bread that you made with your own hands is a simple but profound joy.

Vocabulary

- ingredient 재료, 성분
- patience 인내심
- dough 밀가루 반죽
- knead (반죽을) 이기다, 주무르다
- profound 깊은, 심오한

75-1 What are the four main ingredients for baking bread mentioned in the passage?

① Flour, water, sugar, and butter

② Flour, water, yeast, and salt

③ Flour, milk, eggs, and sugar

④ Flour, yeast, salt, and oil

⑤ Water, yeast, salt, and sugar

75-2 What is the purpose of kneading the dough?

① To make the dough smaller

② To add more flavor

③ To develop the gluten and make the dough smooth

④ To cool down the dough

⑤ To mix in the yeast

75-3 이 글에서 빵을 굽는 과정이 '마법 같다'고 표현된 이유는 무엇인가?

① 빵이 오븐 안에서 저절로 부풀기 때문에

② 간단한 재료들이 인내와 과정을 거쳐 맛있는 빵으로 변신하기 때문에

③ 빵을 굽는 데 특별한 도구가 필요 없기 때문에

④ 빵 굽는 냄새가 사람들을 행복하게 만들기 때문에

⑤ 빵을 만드는 데 시간이 거의 걸리지 않기 때문에

The International Space Station (ISS)

The International Space Station (ISS) is a large spacecraft that orbits the Earth. It is a home and a science laboratory for astronauts from many different countries. The ISS was built as a collaborative project among five space agencies: from the USA, Russia, Japan, Europe, and Canada. It is a symbol of international cooperation. Life on the ISS is very different from life on Earth. Because of microgravity, astronauts float instead of walk. They have to strap themselves down to sleep. Eating is also tricky; food has to be specially packaged. Astronauts on the ISS conduct important experiments in fields like biology, physics, and medicine. What they learn helps us understand more about space and can also have benefits for us here on Earth.

Vocabulary

- orbit ~의 궤도를 돌다
- laboratory 실험실
- astronaut 우주비행사
- collaborative 협력적인, 공동의
- cooperation 협력, 협동
- conduct 수행하다

76-1 What is the International Space Station?

① A planet where humans can live

② A spacecraft that travels to Mars

③ A space laboratory and home for astronauts that orbits Earth

④ A powerful telescope in space

⑤ A rocket used for launching satellites

76-2 Why do astronauts on the ISS float?

① The air is very thin.

② There is no floor.

③ Because of microgravity.

④ They wear special floating suits.

⑤ It is part of their training.

76-3 위 글의 내용과 일치하지 않는 것은?

① ISS는 한 국가가 단독으로 만들었다.

② ISS는 국제 협력의 상징이다.

③ 우주비행사들은 ISS에서 과학 실험을 수행한다.

④ ISS에서의 생활은 지구에서의 생활과 매우 다르다.

⑤ 우주비행사들은 잠을 잘 때 몸을 묶어야 한다.

The Power of Positive Thinking

Do you see the glass as half full or half empty? This question is often used to describe two different ways of thinking: optimism and pessimism. Optimists, who see the glass as half full, tend to focus on the good side of things. Pessimists, who see it as half empty, tend to focus on the bad side. Research shows that positive thinking can have a real impact on your life. Optimists are often healthier, less stressed, and more successful in achieving their goals. This is because a positive attitude helps you to be more resilient when you face challenges. It doesn't mean you should ignore problems. It means you should approach them with a hopeful and proactive mindset. Believing in yourself and your ability to succeed is the first step towards success.

Vocabulary

- optimism 낙관주의
- pessimism 비관주의
- impact 영향, 충격
- attitude 태도
- resilient 회복력 있는, 탄력 있는
- proactive 주도적인, 적극적인

77-1 What does it mean to see a glass as "half full"?

① To be thirsty

② To be a pessimist

③ To focus on the positive side of things

④ To want more water

⑤ To be realistic

77-2 According to the passage, what is a benefit of being an optimist?

① They never have any problems.

② They are often healthier and less stressed.

③ They can predict the future.

④ They are always happy.

⑤ They don't need to work hard.

77-3 이 글의 요지로 가장 적절한 것은?

① 긍정적인 사고는 삶에 좋은 영향을 미칠 수 있다.

② 비관적인 사람들은 성공할 수 없다.

③ 문제를 무시하는 것이 행복의 비결이다.

④ 물을 항상 반 이상 채워 마셔야 한다.

⑤ 성공은 오직 운에 달려 있다.

A World Without Bees

Bees are small insects, but they play a huge role in our ecosystem. They are one of the most important pollinators. A pollinator is an animal that moves pollen from one plant to another, which helps the plants produce fruit and seeds. About one-third of the food we eat, including fruits like apples and strawberries, and vegetables like broccoli and cucumbers, depends on pollination by bees. Unfortunately, the world's bee population is in decline. This is due to problems like habitat loss, pesticide use, and climate change. A world without bees would mean a world with much less food. It would be a disaster for both nature and humans. We need to protect these tiny, hardworking creatures.

Vocabulary

- ecosystem 생태계
- pollinator 꽃가루 매개자
- pollen 꽃가루
- population 개체 수, 인구
- decline 감소, 하락
- pesticide 살충제, 농약

78-1 What is a "pollinator"?

① An animal that eats plants

② An animal that moves pollen between plants

③ A type of bee

④ A person who keeps bees

⑤ A type of fruit

78-2 Why are bees important for humans?

① They produce delicious honey.

② They are beautiful to look at.

③ They help produce a large portion of our food.

④ They keep other harmful insects away.

⑤ They are a symbol of hard work.

78-3 위 글에 따르면, 벌의 개체 수가 감소하는 원인이 아닌 것은?

① 서식지 감소

② 살충제 사용

③ 기후 변화

④ 너무 많은 꿀의 생산

⑤ 인간의 활동

The Day I Got Lost

When I was eight, my family went to a large, crowded department store. I was holding my mom's hand, but I let go for just a second to look at a toy. When I looked back, she was gone. I looked around, but I couldn't see her anywhere. Panic set in. The store seemed huge and full of strangers. I started to cry. A kind store employee saw me. She knelt down and asked for my name and my mom's name. She spoke in a calm and gentle voice, which made me feel a little better. She took me to the customer service center and made an announcement over the speakers. A few minutes later, my mom came running. She hugged me so tightly. That day, I learned how important it is to stay close to my parents in a crowded place.

Vocabulary

- department store 백화점
- panic 극심한 공포, 공황
- employee 직원
- announcement 안내 방송, 발표

79-1 Why did the writer get lost?

① He ran away from his mom.

② He let go of his mom's hand to look at a toy.

③ His mom left him alone.

④ He fell asleep in the store.

⑤ He went to the wrong floor.

79-2 Who helped the writer find his mom?

① A police officer

② Another child

③ A kind store employee

④ His dad

⑤ He found her by himself.

79-3 이 경험을 통해 글쓴이가 배운 교훈으로 가장 적절한 것은?

① 백화점은 위험한 곳이다.

② 장난감을 사달라고 조르면 안 된다.

③ 모르는 사람을 절대 따라가면 안 된다.

④ 붐비는 장소에서는 부모님 곁에 꼭 붙어 있어야 한다.

⑤ 울면 문제가 해결된다.

The Art of Listening

We often think that being a good conversationalist means being a good talker. But being a good listener is just as, if not more, important. True listening is not just waiting for your turn to speak. It's an active process. It means paying full attention to the other person. You should make eye contact and nod to show you are following along. Try to understand not just the words they are saying, but also the feelings behind them. Don't interrupt or start thinking about your reply while they are still talking. When you listen well, you make the other person feel respected and understood. This strengthens your relationships and helps you learn new things. It is a skill that can be improved with practice.

Vocabulary

- conversationalist 대화를 잘하는 사람
- attention 주의, 주목
- interrupt 방해하다, 끼어들다
- reply 대답, 응답
- practice 연습

80-1 What is the main idea of the passage?

① Being a good talker is the most important skill.

② The importance and techniques of being a good listener.

③ How to win an argument.

④ Why you should always make eye contact.

⑤ The difference between talking and speaking.

80-2 According to the passage, what should you NOT do when listening?

① Make eye contact

② Nod your head

③ Pay full attention

④ Interrupt the speaker

⑤ Try to understand their feelings

80-3 위 글에서 '진정한 듣기'란 무엇이라고 설명하는가?

① 말할 차례를 조용히 기다리는 것

② 상대방에게 온전히 집중하는 능동적인 과정

③ 상대방의 말에서 틀린 점을 찾아내는 것

④ 대화 중에 내 대답을 미리 생각하는 것

⑤ 고개를 계속 끄덕이는 것

The Magic of Music

Music has a special power that can touch our hearts and souls. It can make us feel happy when we are sad, or calm when we are anxious. Music exists in every culture around the world, though it may sound very different from place to place. Scientists have discovered that listening to music can actually change our brain chemistry. It can release chemicals called endorphins, which make us feel good. Music can also help us remember things better. That's why many children learn the alphabet through songs. Playing a musical instrument is even more beneficial. It improves coordination between our hands and brain. It also teaches discipline and patience. Whether you are listening to classical music, pop songs, or traditional folk music, you are experiencing one of humanity's greatest gifts.

Vocabulary

- anxious 불안한
- chemistry 화학, 화학 작용
- coordination 조정, 협응
- discipline 규율, 훈련
- folk music 민속 음악

81-1 What is the main topic of the passage?

① Different types of musical instruments

② The power and benefits of music

③ How to become a professional musician

④ The history of classical music

⑤ Why children should learn songs

81-2 According to the passage, how does music affect our brain?

① It makes us smarter immediately.

② It can change our brain chemistry and release endorphins.

③ It helps us speak foreign languages.

④ It makes our brain smaller.

⑤ It has no effect on the brain.

81-3 위 글에서 언급된 악기 연주의 효과가 아닌 것은?

① 손과 뇌 사이의 협응력을 향상시킨다.

② 규율과 인내심을 가르쳐준다.

③ 키가 더 크게 자라도록 도와준다.

④ 기억력 향상에 도움이 된다.

⑤ 우리를 기분 좋게 만들어준다.

The Story of Pizza

Pizza, now one of the world's most popular foods, has an interesting history. It started in Naples, Italy, in the 18th century. Poor people in Naples needed cheap, portable food that they could eat with their hands. They began putting tomatoes, oil, and garlic on flat bread. This was the first pizza. In 1889, a pizza maker named Raffaele Esposito created a special pizza for Queen Margherita of Italy. He used tomatoes, mozzarella cheese, and basil to represent the colors of the Italian flag: red, white, and green. This became known as Pizza Margherita. Italian immigrants brought pizza to America in the late 1800s. At first, only Italian Americans ate it. But after World War II, American soldiers who had been in Italy brought back a love for pizza. Soon, pizza became popular all over America and then the world.

Vocabulary

- portable 휴대할 수 있는
- represent 나타내다, 상징하다
- immigrant 이민자
- soldier 군인

82-1 Where and when did pizza originate?

① Naples, Italy in the 18th century

② Rome, Italy in the 19th century

③ New York, America in the 20th century

④ Paris, France in the 17th century

⑤ London, England in the 18th century

82-2 What made Pizza Margherita special?

① It was the most expensive pizza.

② It used ingredients representing the Italian flag colors.

③ It was the biggest pizza ever made.

④ It was made by the queen herself.

⑤ It was the first pizza with cheese.

82-3 위 글의 내용과 일치하는 것을 고르시오.

① 피자는 부유한 사람들을 위해 처음 만들어졌다.

② 미국 군인들이 2차 대전 후 피자에 대한 사랑을 가져왔다.

③ 피자는 처음부터 전 세계적으로 인기가 있었다.

My Grandmother's Garden

Every summer, I visit my grandmother who lives in the countryside. She has a beautiful garden behind her house. In her garden, she grows vegetables like tomatoes, carrots, and lettuce, and fruits like strawberries and apples. But my favorite part of her garden is the flower section. She has roses of different colors, sunflowers that grow taller than me, and lavender that smells wonderful. My grandmother taught me how to plant seeds and water them properly. She showed me how to recognize when vegetables are ready to be picked. We would wake up early in the morning to work in the garden together. She always said, "A garden teaches you patience and rewards you with beauty and food." Working in her garden has made me appreciate where our food comes from and how much care it takes to grow it.

Vocabulary

- sunflower 해바라기
- lavender 라벤더
- recognize 알아보다, 인식하다
- patience 인내심

83-1 What is the writer's favorite part of the grandmother's garden?

① The vegetable section

② The fruit trees

③ The flower section

④ The tool shed

⑤ The greenhouse

83-2 What did the grandmother teach the writer?

① How to cook vegetables

② How to plant seeds and recognize ripe vegetables

③ How to sell flowers

④ How to build a greenhouse

⑤ How to make flower arrangements

83-3 할머니가 "정원은 인내심을 가르치고 아름다움과 음식으로 보상해준다"라고 말한 의미는?

① 정원 가꾸기는 쉽고 즐거운 일이다.

② 정원에서 일하면 돈을 많이 벌 수 있다.

③ 정원 가꾸기는 시간과 노력이 필요하지만 그만한 가치가 있다.

④ 정원에서는 꽃만 키워야 한다.

The Mystery of Dreams

Every night when you sleep, you enter a fascinating world: the world of dreams. Dreams are sequences of images, emotions, and thoughts that happen in your mind while you sleep. Scientists still don't fully understand why we dream, but they have some interesting theories. One theory suggests that dreams help our brain process and organize the information we learned during the day. Another theory says that dreams help us practice dealing with difficult situations. Most dreams occur during a sleep stage called REM (Rapid Eye Movement) sleep. During this time, your eyes move quickly, but your body is paralyzed to prevent you from acting out your dreams. Some people remember their dreams clearly, while others forget them as soon as they wake up. Dreams can be happy, scary, strange, or realistic. They remain one of the great mysteries of the human mind.

Vocabulary

- sequence 연속, 순서
- organize 정리하다, 조직하다
- paralyzed 마비된
- prevent 방지하다, 막다
- mystery 수수께끼, 신비

84-1 What are dreams?

① Real events that happen while we sleep

② Sequences of images, emotions, and thoughts during sleep

③ Messages from the future

④ Problems with our brain

⑤ Stories we create when we're awake

84-2 According to the passage, when do most dreams occur?

① When we first fall asleep

② During deep sleep

③ During REM sleep

④ Just before we wake up

⑤ Throughout the entire night

84-3 위 글의 내용과 일치하지 않는 것은?

① 꿈은 잠들 때 우리 마음속에서 일어나는 현상이다.

② 과학자들은 꿈의 모든 것을 완전히 이해하고 있다.

③ REM 수면 중에는 우리 몸이 마비된다.

④ 어떤 사람들은 꿈을 선명히 기억하고, 어떤 사람들은 바로 잊는다.

The Helpful Robot

Last week, our science teacher brought a small robot to class. It was about the size of a basketball and had wheels instead of legs. The robot's name was Helper, and it could do many amazing things. It could navigate around the classroom without bumping into desks or students. It had cameras for eyes and could recognize faces. When the teacher asked it to find someone, it would roll over to that person and say hello. Helper could also carry light objects like books or pencils. The most impressive thing was that it could answer simple questions about science. When a student asked, "What is the largest planet?" Helper replied, "Jupiter is the largest planet in our solar system." The teacher explained that robots like Helper are becoming more common in hospitals, homes, and offices. They can help people with various tasks and make life easier.

Vocabulary

- navigate 길을 찾아가다, 항해하다
- recognize 인식하다, 알아보다
- impressive 인상적인
- various 다양한

85-1 What could Helper the robot NOT do?

① Navigate around the classroom

② Recognize faces

③ Cook dinner

④ Carry light objects

⑤ Answer simple questions

85-2 When asked about the largest planet, what did Helper answer?

① "Mars is the largest planet."

② "Earth is the largest planet."

③ "Jupiter is the largest planet in our solar system."

④ "I don't know."

⑤ "Saturn is the largest planet."

85-3 위 글에 따르면, 헬퍼 같은 로봇들이 어디에서 사용되고 있는가?

① 학교에서만

② 과학 실험실에서만

③ 병원, 가정, 사무실 등 다양한 곳에서

④ 우주 정거장에서만

⑤ 공장에서만

The Importance of Recycling

Recycling is the process of turning used materials into new products. It's one of the most important things we can do to protect our environment. When we recycle, we reduce the amount of waste that goes to landfills. We also save natural resources like trees, water, and minerals. For example, recycling one ton of paper can save 17 trees, 7,000 gallons of water, and enough energy to power a home for six months. There are many things you can recycle: paper, plastic bottles, glass jars, aluminum cans, and old electronics. The recycling process usually involves collecting, sorting, and processing the materials. Then they are made into new products. However, recycling is only effective if people participate. We all need to do our part by separating our trash and putting recyclable items in the right bins.

Vocabulary

- waste 쓰레기, 폐기물
- landfill 매립지
- collect 수집하다
- sort 분류하다
- process 처리하다, 가공하다
- participate 참여하다

86-1 What is the main benefit of recycling mentioned in the passage?

① Making money from old items

② Protecting the environment and saving resources

③ Creating new jobs

④ Making trash bins look nicer

⑤ Reducing the size of homes

86-2 According to the passage, recycling one ton of paper can save:

① 17 trees and 7,000 gallons of water

② 10 trees and 5,000 gallons of water

③ 20 trees and 10,000 gallons of water

④ 17 trees but no water

⑤ 7,000 trees and 17 gallons of water

86-3 재활용이 효과적이 되기 위해 필요한 것은 무엇인가?

① 정부의 강력한 법규만 있으면 된다.

② 새로운 기술 개발만 하면 된다.

③ 사람들이 참여해서 쓰레기를 분리하고 올바른 곳에 버려야 한다.

④ 재활용 공장을 더 많이 지어야 한다.

⑤ 재활용 가능한 제품만 생산해야 한다.

A Message from the Past

While cleaning out my grandfather's attic, I found an old wooden chest. Inside, there were yellowed photographs, old coins, and a bundle of letters tied with a faded ribbon. The letters were written in beautiful handwriting that looked very different from today's writing. As I read them, I realized they were love letters between my grandfather and grandmother from the 1950s. In the letters, my grandfather wrote about his daily life, his hopes for the future, and his deep love for my grandmother. He described going to the movies, dancing at local halls, and saving money to buy her an engagement ring. My grandmother's letters were equally touching. She wrote about waiting for his letters and how happy they made her feel. Reading these letters was like stepping back in time. It made me realize how precious written words can be and how they can preserve our most important memories.

Vocabulary

- attic 다락방
- handwriting 손글씨
- engagement ring 약혼 반지
- precious 소중한
- preserve 보존하다

87-1 Where did the writer find the old letters?

① In the basement

② In his grandfather's attic

③ In the garden

④ In the garage

⑤ In the library

87-2 What did the grandfather write about in his letters?

① His job and career plans

② His daily life, hopes, and love for grandmother

③ His travels around the world

④ His opinions about politics

⑤ His recipes for cooking

87-3 이 경험을 통해 글쓴이가 깨달은 것은 무엇인가?

① 옛날 사람들의 글씨가 더 아름답다는 것

② 편지가 이메일보다 배달이 느리다는 것

③ 손으로 쓴 글이 얼마나 소중하고 중요한 기억을 보존할 수 있는지

④ 1950년대가 지금보다 더 좋은 시대였다는 것

The Amazing Journey of Monarch Butterflies

Every year, millions of monarch butterflies make one of nature's most incredible journeys. These delicate insects travel up to 3,000 miles from Canada and the United States to central Mexico. What makes this journey even more amazing is that the butterflies that start the trip are not the same ones that finish it. The journey takes multiple generations. The butterflies that begin the trip in the fall will mate and die along the way. Their children and grandchildren continue the journey. Even more mysterious is how they know where to go. Scientists believe they use the sun, magnetic fields, and even genetic memory to navigate. The butterflies that reach Mexico will spend the winter there, clustered together on trees to stay warm. In the spring, they begin the journey back north, but again, it takes several generations to complete the round trip.

Vocabulary

- incredible 믿을 수 없는, 놀라운
- delicate 연약한, 섬세한
- multiple 다수의, 여러 개의
- mate 짝짓기하다
- navigate 길을 찾아가다

88-1 How far do monarch butterflies travel during their migration?

① Up to 1,000 miles

② Up to 2,000 miles

③ Up to 3,000 miles

④ Up to 4,000 miles

⑤ Up to 5,000 miles

88-2 What is unusual about the monarch butterfly migration?

① It takes only one day to complete.

② The same butterflies that start the trip also finish it.

③ It takes multiple generations to complete the journey.

④ They travel alone, not in groups.

⑤ They only travel during the winter.

88-3 위 글에 따르면, 나비들이 길을 찾는 방법으로 언급되지 않은 것은?

① 태양

② 자기장

The School Chess Club

I joined the school chess club three months ago, and it has been an amazing experience. Chess is often called "the game of kings" because it requires strategy, patience, and deep thinking. At first, I only knew the basic moves of each piece. The bishop moves diagonally, the rook moves in straight lines, and the knight moves in an L-shape. Our club teacher, Mr. Kim, taught us advanced strategies like controlling the center of the board and protecting our king. He also taught us famous openings like the "Queen's Gambit" and the "Sicilian Defense." What I love most about chess is that every game is different. You have to think several moves ahead and try to predict what your opponent will do. Playing chess has improved my concentration and problem-solving skills. It has also taught me that sometimes you have to sacrifice something small to gain something bigger.

Vocabulary

- bishop (체스의) 비숍
- rook (체스의) 룩
- knight (체스의) 나이트
- opening (체스의) 오프닝
- problem-solving 문제 해결

89-1 Why is chess called "the game of kings"?

① Because only kings were allowed to play it

② Because it requires strategy, patience, and deep thinking

③ Because the king is the most important piece

④ Because it was invented by a king

⑤ Because it is very expensive to play

89-2 Which chess piece moves in an L-shape?

① Bishop

② Rook

③ Knight

④ Queen

⑤ Pawn

89-3 체스를 통해 글쓴이가 배운 것이 아닌 것은?

① 집중력 향상

② 문제 해결 능력 향상

③ 몇 수 앞을 내다보는 능력

④ 작은 것을 희생해서 큰 것을 얻는 지혜

⑤ 상대방과 빨리 친해지는 방법

The Science of Rainbows

A rainbow is one of nature's most beautiful phenomena. But do you know how rainbows form? It all starts with sunlight, which looks white but actually contains all the colors of the spectrum: red, orange, yellow, green, blue, indigo, and violet. When sunlight passes through water droplets in the air, something magical happens. The water acts like a tiny prism, splitting the white light into its component colors. This process is called refraction. For you to see a rainbow, the sun must be behind you and there must be water droplets in front of you. That's why rainbows often appear after it rains, when the sun comes out while there are still water droplets in the air. The colors always appear in the same order, with red on the outside and violet on the inside. Sometimes you can see a double rainbow, which happens when light is reflected twice inside the water droplets.

Vocabulary

- phenomenon 현상 (복수: phenomena)
- spectrum 스펙트럼, 빛의 띠
- prism 프리즘
- refraction 굴절
- double rainbow 이중 무지개

90-1 What causes a rainbow to form?

① Only sunlight

② Only rain

③ Sunlight passing through water droplets and splitting into colors

④ Reflection from the ground

⑤ Magic in the sky

90-2 What must be true for you to see a rainbow?

① The sun must be in front of you

② It must be nighttime

③ The sun must be behind you and there must be water droplets in front

④ There must be clouds everywhere

⑤ It must be winter

90-3 무지개의 색깔 순서에서 가장 바깥쪽과 가장 안쪽의 색은?

① 바깥쪽: 보라색, 안쪽: 빨간색

② 바깥쪽: 빨간색, 안쪽: 보라색

③ 바깥쪽: 파란색, 안쪽: 노란색

④ 바깥쪽: 초록색, 안쪽: 주황색

The Art of Origami

Origami, the Japanese art of paper folding, is much more than just a hobby. The word "origami" comes from two Japanese words: "ori" meaning "to fold" and "kami" meaning "paper." This ancient art form requires only one material: a square piece of paper. No scissors, glue, or tape are allowed. Despite this limitation, origami artists can create incredibly complex and beautiful sculptures. From simple cranes and flowers to detailed dragons and geometric shapes, the possibilities are endless. Origami teaches important life skills. It requires precision, patience, and the ability to follow detailed instructions. It also helps develop spatial reasoning and fine motor skills. Many schools now use origami in math classes because it helps students understand geometry and fractions. The meditative nature of folding paper can also reduce stress and improve focus. What starts as a flat piece of paper becomes a three-dimensional work of art through the magic of folding.

Vocabulary

- material 재료
- complex 복잡한
- precision 정확성, 정밀함
- reasoning 추론, 논리적 사고
- meditative 명상적인

91-1 What does the word "origami" mean?

① Paper cutting

② Paper folding

③ Paper painting

④ Paper tearing

⑤ Paper gluing

91-2 What materials are allowed in traditional origami?

① Paper, scissors, and glue

② Only a square piece of paper

③ Paper and tape

④ Colored paper and markers

⑤ Any kind of paper and tools

91-3 종이접기가 학교에서 수학 수업에 사용되는 이유는?

① 종이가 싸기 때문에

② 학생들이 기하학과 분수를 이해하는 데 도움이 되기 때문에

③ 교실을 조용하게 만들기 때문에

④ 예술 작품을 만들 수 있기 때문에

⑤ 종이를 아낄 수 있기 때문에

A Day at the Science Museum

Last Saturday, my family visited the city science museum. It was much more exciting than I had expected. The museum had interactive exhibits where we could touch and experiment with different scientific concepts. In the physics section, I played with a giant pendulum and learned how it always swings back to the same height. The chemistry lab let visitors do safe experiments, like creating erupting volcanoes with baking soda and vinegar. My favorite part was the planetarium, where we watched a show about the solar system. The narrator explained how vast the universe is and showed us beautiful images of distant galaxies. We also visited the dinosaur hall, where a huge T-Rex skeleton stood in the center. The museum had many hands-on activities that made learning fun and memorable. I left the museum feeling inspired to learn more about science.

Vocabulary

- exhibit 전시물
- pendulum 진자, 추
- erupt 분출하다
- narrator 내레이터, 해설자
- galaxy 은하

92-1 What made the science museum special?

① It was very old

② It had interactive exhibits where visitors could experiment

③ It was free for everyone

④ It was the largest museum in the city

⑤ It only had dinosaur bones

92-2 What did the writer learn about the pendulum?

① It never stops swinging

② It always swings back to the same height

③ It can tell time

④ It is dangerous to touch

⑤ It was invented yesterday

92-3 글쓴이가 과학 박물관에서 가장 좋아한 곳은 어디였는가?

① 물리학 섹션

② 화학 실험실

③ 천체 투영관

④ 공룡 전시관

⑤ 선물 가게

The Power of Kindness

Small acts of kindness can make a big difference in someone's day. Last week, I witnessed a beautiful example of this. I was waiting for the bus when I saw an elderly woman struggling with heavy grocery bags. She looked tired and was having difficulty managing all the bags. A young man nearby noticed her situation. Without hesitation, he approached her and offered to help. "Let me carry those for you," he said with a warm smile. The woman's face lit up with gratitude. "Thank you so much, dear," she replied. The young man carried her bags to the bus stop and even helped her get on the bus. The entire interaction took only a few minutes, but the impact was tremendous. The woman seemed much happier, and other people at the bus stop were smiling too. It reminded me that kindness is contagious – when we see someone being kind, it inspires us to be kind as well.

Vocabulary

- manage 처리하다, 다루다
- hesitation 주저함, 망설임
- gratitude 감사함
- tremendous 엄청난, 거대한
- contagious 전염성이 있는

93-1 What problem did the elderly woman have?

① She was lost and couldn't find her way

② She was struggling with heavy grocery bags

③ She missed her bus

④ She lost her wallet

⑤ She felt sick

93-2 How did the young man help the elderly woman?

① He gave her money for a taxi

② He called her family

③ He carried her bags and helped her get on the bus

④ He bought her groceries

⑤ He gave her directions

93-3 이 글에서 말하는 친절함의 '전염성'이란 무엇을 의미하는가?

① 친절함이 질병처럼 퍼진다는 뜻

② 친절한 행동을 보면 다른 사람들도 친절해지고 싶어진다는 뜻

③ 친절함은 위험하다는 뜻

④ 친절함은 가끔만 해야 한다는 뜻

⑤ 친절함은 돈으로 살 수 있다는 뜻

The History of the Olympic Games

The Olympic Games have a long and fascinating history that dates back to ancient Greece. The first ancient Olympics were held in Olympia, Greece, in 776 BC. These games were held every four years for nearly 12 centuries. The ancient Olympics were quite different from today's games. Only men could compete, and they often competed naked. The games included events like running, wrestling, boxing, and chariot racing. The Olympics were so important that all wars stopped during the games, a period called the "Olympic Truce." The ancient Olympics ended around 400 AD when the Roman Emperor banned them. The modern Olympics began in 1896 when a French educator named Pierre de Coubertin revived the games. He believed that sports could promote peace and understanding between nations. Today, the Olympics include both Summer and Winter games, and athletes from all over the world participate.

Vocabulary

- ancient 고대의
- compete 경쟁하다, 출전하다
- naked 벌거벗은
- educator 교육자
- revive 되살리다, 부활시키다

94-1 When and where were the first ancient Olympics held?

① Athens, Greece in 776 BC

② Olympia, Greece in 776 BC

③ Rome, Italy in 776 BC

④ Sparta, Greece in 776 BC

⑤ Troy, Greece in 776 BC

94-2 What was the "Olympic Truce"?

① A special event in the games

② A period when all wars stopped during the Olympics

③ The prize given to winners

④ The oath taken by athletes

⑤ The opening ceremony

94-3 고대 올림픽과 현대 올림픽의 차이점이 아닌 것은?

① 고대에는 남성만 참가할 수 있었다

② 고대에는 선수들이 벌거벗고 경기했다

③ 고대에는 4년마다 열렸다

④ 고대에는 겨울 경기가 없었다

⑤ 고대에는 전 세계에서 선수들이 참가했다

My First Job Interview

Last month, I applied for a part-time job at a local bookstore. When they called me for an interview, I was both excited and nervous. I had never been to a job interview before. My mom helped me prepare by practicing common interview questions. She told me to dress professionally and arrive early. On the day of the interview, I put on my best shirt and pants and arrived 15 minutes early. The manager, Ms. Lee, was very friendly. She asked me about my experience with books and why I wanted to work there. I explained that I love reading and that I thought working in a bookstore would be perfect for me. She also asked about my availability and whether I could work weekends. The interview lasted about 20 minutes. At the end, Ms. Lee said she would call me in a few days with her decision. Three days later, I got the call – I got the job! I was thrilled and couldn't wait to start working.

Vocabulary

- professionally 전문적으로
- manager 매니저, 관리자
- experience 경험
- availability 가능한 시간, 여유

95-1 How did the writer prepare for the interview?

① He read books about interviews

② His mother helped him practice interview questions

③ He watched videos online

④ He asked his friends for advice

⑤ He didn't prepare at all

95-2 What questions did the manager ask during the interview?

① About his family and hobbies

② About his experience with books and his availability

③ About his grades in school

④ About his future career plans

⑤ About his salary expectations

95-3 면접에서 글쓴이가 서점에서 일하고 싶은 이유로 말한 것은?

① 돈을 많이 벌 수 있을 것 같아서

② 집에서 가까워서

③ 책을 좋아하고 서점에서 일하는 것이 완벽할 것 같아서

④ 친구가 추천해서

⑤ 다른 일자리가 없어서

The Mystery of Sleep

We spend about one-third of our lives sleeping, yet sleep remains one of the greatest mysteries of human existence. While we sleep, our bodies may look inactive, but our brains are actually very busy. Sleep occurs in different stages, each serving important functions. During deep sleep, our bodies repair tissues and strengthen our immune system. During REM (Rapid Eye Movement) sleep, our brains process memories and emotions. Scientists have discovered that lack of sleep can have serious consequences. People who don't get enough sleep have trouble concentrating, making decisions, and controlling their emotions. Chronic sleep deprivation can even lead to health problems like obesity, diabetes, and heart disease. Different people need different amounts of sleep, but most adults need 7-9 hours per night. Creating a good sleep routine, such as going to bed at the same time each night and avoiding screens before bedtime, can help improve sleep quality.

Vocabulary

- mystery 수수께끼, 신비
- inactive 비활성의, 움직이지 않는
- stage 단계, 단계
- immune system 면역 체계
- consequence 결과, 영향
- deprivation 부족, 결핍

96-1 What happens to our brain while we sleep?

① It becomes completely inactive

② It becomes very busy processing memories and repairing the body

③ It stops working entirely

④ It only dreams

⑤ It shrinks in size

96-2 What are some consequences of not getting enough sleep?

① Better concentration and decision-making

② Improved emotional control

③ Trouble concentrating, making decisions, and controlling emotions

④ Increased energy levels

⑤ Better health overall

96-3 좋은 수면 습관으로 언급된 것은?

① 매일 다른 시간에 잠자리에 들기

② 잠자기 전에 스크린 보기

③ 매일 같은 시간에 잠자리에 들고 잠자기 전 스크린 피하기

④ 가능한 한 적게 자기

⑤ 낮에 많이 자기
